WHAT WE NEED FROM YOU TO START

Plans & measurements

A floor plan or sketch with room sizes, window and door positions.

Photos of the room

A few wide shots, plus services: water, gas, sockets, radiators.

Style & finishes

Chosen fronts, worktop and handles, or a few inspiration images.

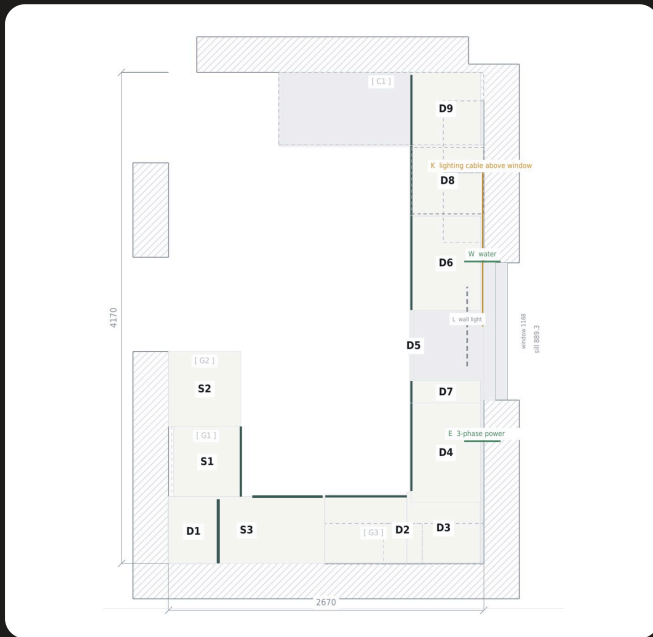

Appliances & budget

Appliance models if known, and a rough budget range.

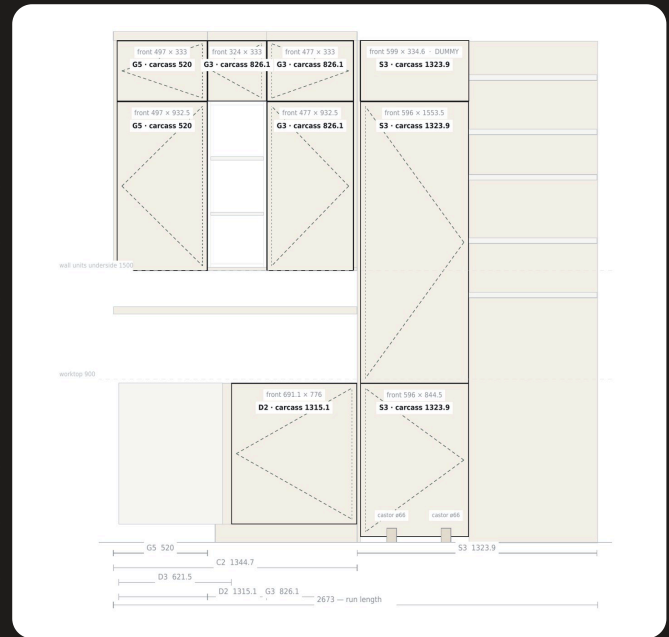

PRODUCTION DRAWINGS • REAL RESULTS

Every front and carcass dimensioned.

With the Complete package, the maker gets a production PDF: plans and elevations with front sizes, carcass widths and run lengths, followed by sections, worktops and cut lists for the workshop.

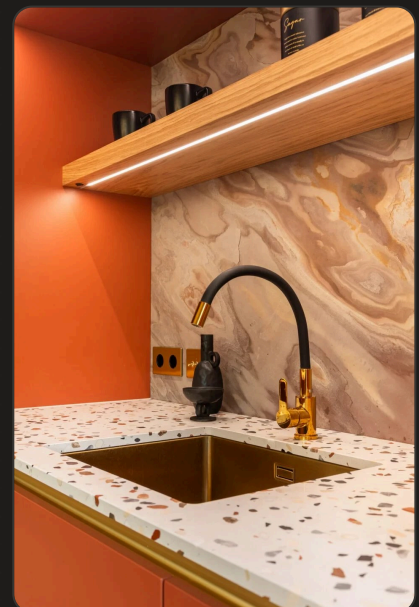

EXCERPT • PLAN, MODULES & SERVICES

EXCERPT • ELEVATION, FRONTS & CARCASSES

REAL PHOTOS • A KITCHEN WE DESIGNED, BUILT BY A PARTNER WORKSHOP

Extra view Same scene, new angle	£120
Express turnaround	+30–50%
Trade partners Regular monthly work for showrooms & workshops	Volume pricing

HOW REVIEW ROUNDS WORK

1. After the first presentation, you get up to **3 review rounds** as part of the package.
2. One round is one set of comments, collected and sent together. We then return updated visuals.
3. Further rounds are charged at the fixed add-on price. No hourly billing.
4. A change of layout after approval is treated as a new brief and quoted separately.

TERMS

PRICES	Fixed per package in GBP, with no VAT on top. Sizes are confirmed with your brief before work starts.
--------	---

TIMING	First presentation within 1 week for S projects. M and L timings are agreed with your brief.
--------	--

PAYMENT	50% on order, 50% after the final files are delivered, due within 7 days.
---------	---

DIMENSIONS	All dimensions in visuals, drawings and production PDFs must be checked on site by the maker or installer before manufacture or fitting. Final measurements and manufacture are the maker's responsibility.
-------------------	---

VISUALS	Renders show the design intent. Real materials, colours and finishes can vary slightly from what is shown on screen.
---------	--

WORKSHOP NOTE

Base units are usually 560 mm deep under a 600 mm worktop. The front overhang and the gap to the wall are drawn into every visual, so what your client approves is what you can build.

LET'S TALK ABOUT YOUR NEXT PROJECT

Send us a plan and we'll send a fixed quote within 24 hours.
